

How to best avoid the DREADED

“Trash Can Violation”

- Garbage cans, supplies, yard debris, rubbish and trash, or similar articles, shall not be stored or permitted in any area on the exterior of the dwelling or property, which is visible to neighbors or the public from ground level.
- Garbage cans, yard debris and other trash to be picked up shall be put at curbside no earlier than the evening before the scheduled pickup.
- Garbage cans and recycling bins shall be removed from curbside by the end of the pickup day.

Trash/ Garbage cans may be stored behind a barricade.

- ALL barricades MUST be approved by ACC prior to purchase and/or installation.
- May be constructed in the same style of existing fence, appropriate landscaping or concrete and stucco painted to match the house. (NO Picket Fence style barricades permitted)
 - Barriers shall be setback 3’ from front corner of owners’ or neighbors’ home whichever is furthest.
 - The landscaping, at the time of planting shall be 2/3 of the height of the trash cans and shall screen the trash cans fully within six months.
 - Fencing must be maintained with a maximum height of six inches above any trash receptacle. City of Oviedo trash receptacles are approximately 45” tall.
 - Barrier shall be an L design to ensure trash is not seen from street level or neighbors’ home with a maximum height of 51” tall

GREAT NEWS

We now have another option for our unsightly bins – CanSkirt (Garbage Can Camouflage) -

www.CanSkirt.com

Again.... These too MUST be approved (style) prior to ordering or installing and the same setback rule applies. Check out the website as there are several ways to use as well as style options. These also must be used with the lid cover.
